

# NO MORE BAILOUTS!

The banking industry does not operate in a free market. It is regulated at all levels and includes some of the largest players in the partnership of business and government known as the corporate state.

**MORE CENTRALIZED CONTROL WILL  
ONLY FURTHER HARM THE ECONOMY.**

The market must be freed. The chains of political intervention insulate established interests from market forces, thus perpetuating inefficiency and irresponsibility.

The only solution is:

**FREE THE MARKETS - FREE THE PEOPLE!**
