

DON'T FALL FOR THE POLITICAL GAME

Politicians and media present today's issues as one team facing off against another team. The rules have been decided and we are expected to follow one of the teams in the tightly controlled political arena.

The reality is that all teams of politicians want to control you. They differ only in how they oppress.

The essential conflict of today, the conflict that decides the future, is liberty versus control. The desires of the individual versus the plans of tyrants.

So which side will you choose?

Alliance of the Libertarian Left
