

SELF-DEFENSE IS YOUR RIGHT!

Politicians want you to depend on the government for your safety.

Unfortunately governments murder and steal. They also jail people who have not harmed anyone.

Even in the best of circumstances, police have no legal obligation to protect you, and cannot possibly protect everyone.

When people possess the means of defense (like solidarity and guns) they are much safer. Personal defense is more reliable and works faster than calling the police. Relying on police also leaves you vulnerable to their abuse.

Nobody can take your rights away - they can only make it harder to exercise your rights. Everyone has a right to own and carry weapons, and everyone has a right to use them defensively.

Protect your life and liberty. Teach others the value of freedom, and the most peaceful and effective ways to get it. And keep your guns.
